

Samvardhana Motherson Group (SMG) is a globally operating supplier providing full system solutions to the automotive industry, from design, simulation and prototyping to tooling, molding, painting and final assembly of highly integrated modules. Its business portfolio comprises a broad range of superior quality and aesthetic products for all large car manufacturers worldwide such as cockpits, bumpers covers, rear view mirrors, camera systems, lighting systems, decorative interior and exterior trim, wiring systems, air management systems and off-highway vehicle cabins.

SMG also produces refrigeration systems, machined and sintered metal parts, elastomer parts, cutting tools, thin film coating metals and injection molding tools and provides comprehensive IT and design engineering services to various industry segments.

SMG is one of the 23rd largest automotive suppliers of the world, employing over 135.000 people in more than 270 production facilities in 41 countries on 5 continents. In the fiscal year 2018-2019 the Group generated sales of USD 11,7 billion.

SMG has been strongly engaged in Europe in recent years through strategic partnerships, investments and acquisitions. In order to expand our services, we are always looking for dedicated employees who optimally complement our international team, professionally and personally.
